

ROMA

La Sindaca

RA/ 82281

Rome, 14 DIC 2018

Dear President,

Roma would be very proud to host the 16<sup>th</sup> Conference of the World Federation of Public Health Associations that will be held in 2020.

I am deeply convinced that such an important event, gathering experts, researchers, academics, administrators, policy makers from around the world to exchange views, knowledge and experiences on key public health issues, contributing in this way to the promotion of public health at a national and global level, would be for our city a very prestigious opportunity both to give its contribute to this significant issues and to highlight its international relevance.

Hoping that Rome will host the 16<sup>th</sup> WFPHA Conference, I take this opportunity to convey my best wishes for a great success in all WFPHA's activities.

My best regards,

Virginia Raggi
