

## **PhD position in Public Health Sciences at University of Milan, Italy**

The PhD in Public Health Sciences is mostly directed to young candidates whose interest is to develop research on international topics including clinical and epidemiological settings. To facilitate a multidisciplinary approach, the PhD in Public Health Sciences is open to young graduates from medical and health-care fields as well as from other scientific fields, such as Biology, Biotechnology, Veterinary medicine, Statistics, Sociology, and Economics.

Successful candidates will receive a fellowship by the University of Milan, and will work in an interdisciplinary and stimulating environment.

The fellowships are for a 3-year period, starting from October 2019.

The Ph.D call is currently available online at the following website:

<https://anteprima.unimi.it/en/taxonomy/term/8>

or

<https://anteprima.unimi.it/en/postgraduate/phd/ay-2019-2020-public-health-sciences>

The deadline for applications will be on June, 24 2019 (2.00 pm, CET or UTC+1).
